

User Manual

Thank you for purchasing the Vaporin Sub-Ohm Series Maverick. With complete control over every puff, the Maverick is designed and engineered to perfect the way you vape.

We appreciate your business. If you have any questions about your Vaporin product, or comments about your experience with it, please contact us and let us know.

Sincerely,

The Vaporin Team

Sub-Ohm Tank

1. Driptip 2. Air Tube 3. Pyrex Glass
4. 0.5 ohm OCC Coil 5. Air Flow Control 6. Base

Fill Capacity: 4 ml • Resistance: 0.5ohm

Specification:

1. Battery Capacity: 2200 mah
2. Full Charged Battery Output: 30 watt
3. Charge time: 2-3 Hours
4. Battery Lifespan: 300 Charge Cycle
5. Liquid Capacity: 4 ml
6. Coil head: 0.5 ohm BVC / Range 15w-50w
7. USB Cable: Input 5.0V 500mah Output 4.2V 420mah
8. Thread: 510 Thread
9. Drip tip: Enlarge Drip Tip Hole
10. Airflow system: Enhance Air Flow Valve

POWER

How to FILL your tank with Vaporin E-Liquid

1. Separate the atomizer base from the upper part and then drip 2-3 drops along the inner wall of the new coil.

2. Invert the upper part, filling the tank with e-liquid making sure to avoid the center hole. Do not fill over the air tube, to avoid flooding.

3. Reconnect the base and wait 1-2 minutes until the e-liquid fully saturates the coil.

4. Connect the battery power and then inhale it from the drip tip.

5. When replacing the coil head, please repeat steps 1 to step 4

Now that you've filled your tank, you're ready to begin priming the coil. First start by taking dry hits. A dry hit is when you take a pull from your tank without activating the battery. The suction created will force the e-liquid into the coil's wicking area and allows the wick to become saturated with e-liquid. Take around 5 dry hits, but do not exceed that amount. If you take more than 5 dry hits, you're taking a chance of flooding your coil with e-liquid or sucking e-liquid into your mouth.

The coil should be primed and ready to go. However, many vapers will jump the gun by applying too much power to the coil right after it's primed. A quick hit is to take pulls from the tank very quickly without inhaling any of the vapor. It's a quick hit, blow out, quick hit, blow out... you can do this about 5 times and the tank should work flawlessly.

To Power on the Maverick, simply press the power button 5 times fast to power the element on.

Hold the power button down up to 5 seconds to activate the heating element. With the power button still held down, put the mouthpiece in your mouth and inhale lightly.

WARNING: Do not use your **Vaporin** with any other devices or products other than supplied. Do not charge your **Vaporin** batteries with any other charging device other than certified **Vaporin** chargers. Charging using any other device may cause fire.

How to change the coil head on a **Vaporin** Maverick:

Step 1: Unscrew the Maverick tube from bottom base.

Step 2: Unscrew the old coil head from the top of the base assembly.

Step 3: Screw the new coil head into the bottom base again;

* Tip: A loose coil head can cause leaking.

Step 4: Screw the Maverick tube back into the bottom base.

Please Note

- Persons under 18 years of age are not permitted to purchase or use **Vaporin** Electronic vaporizers. Non-smokers, children, pregnant women, women who may become pregnant, women breastfeeding or persons with or at risk of heart disease, hypertension, high blood pressure, diabetes, or taking medicine for depression or asthma should not use this product. Nicotine is known to cause sudden and severe increases in heart rate and blood pressure and may be dangerous to your health.
- **Vaporin** is intended for current smokers over the age of 18 who wish to use **Vaporin** as an alternative to traditional smoking, without the tar, ash and smell found in traditional vaporizers.
- You should consult your physician before using **Vaporin** Electronic Vaporizer because they may or may not contain nicotine.
- If you are smoking tobacco products you are encouraged to stop.
- When not smoking **Vaporin**, you should always keep it stored in their original box. If the vaporizer is exposed to wind or loud noises, this may cause to activate continually and overheat.
- Please keep out of reach of children and pets. Some parts of **Vaporin** may be a choking hazard. If ingested, please consult your doctor or vet immediately.

Vaporin Limited Warranty

Vaporin, LLC warrants, for a period of 90 days, from the original purchase date, that the electronic vaporizer, charger and batteries included are free from material defects and workmanship. If material is found to be defective, the sole liability from Vaporin is to repair or replace with a factory recertified product. If there is dissatisfaction or damage arising from use of our product, you agree the only recourse and maximum liability may be repair or replacement of your product. This warranty is provided in lieu of all express or implied warranties including merchantability and fitness warranties unless these warranties are required by law. If such warranties are required they will apply only during the warranty period. For more information visit www.vaporin.com.

The warranty does not apply to other parts or if the product is used with non Vaporin certified or approved product, used for commercial purposes, damaged by wear and tear, acts of God, misuse, abuse, negligence, accident, modified or tampered with, or any other cause other than defective material or workmanship.
